WORKFORCE DEVELOPMENT

PROFESSIONAL DEVELOPMENT AND CERTIFICATION PROGRAMS

PROVIDING TRAINING TO THOSE WHO MAY NOT HAVE ACCESS

UMBC Training Center's **Workforce Development** mission is to provide robust professional development and certification programs to those who may otherwise not have access to career pathways due to funding, education, or opportunity.

- **We are committed to increasing the number of professionals** entering technical careers in under-represented populations such as those without college degrees, women, and people of color.

- **We are committed to upskilling and reskilling** nnon-traditional students including transitioning military and veterans, under and un-employed, and displaced workers.

- **We are committed to increasing computer and technical literacy** in the areas of greatest opportunity nationally, including Baltimore City.

- **We are committed to providing entrepreneurship training** to our target populations with the ultimate goal of increasing business ownership in under-represented populations.

- **We are committed to remaining focused on the individual** career-changer and career-starter, creating education pathways that are flexible and comprehensive and designed for those with family and work responsibilities.
